## mplin Ends Series of Classes

Pamplin Adult Farmers Even- class wound up its present se- class meetings last Thursday with Mr. W. C. Dudley, area ner of Vocational Agriculture, of the discussion on "Food ration."

class, sponsored in Pamplin Vocational Agriculture De- nt of the county and the Pam- ian Club, completed a se- ten meetings with this topic. ollment in the class for the season is 28, with an aver- ndance of 13. Three mem- of the class were congratulated meeting for a perfect at- nce record this season. They Cecil Ligon, class president; arvey, and R. W. Covington. an was reelected president class for another year.

Dudley pointed out that were at least four different ds of preserving food: can- ning, freezing, curing, and storing. In the discussion it was pointed out that the community canneries were set up primarily as educational institutions to teach people the best known methods of canning and preserving their farm grown foods. This is still the purpose of the canneries and there are many people who have not yet been reached and do not realize the best methods of preserving their foods. The best equipment available is present in the county canneries, and the best known methods of canning are followed there. If users of the cannery would make sure that they followed instructions in gathering, preparing, and canning their food, they could be assured of a fine high-quality product.

This final meeting this year of the Pamplin Adult Farmers Class was a Ladies Night meeting and several ladies were present for the occasion. After the meeting refreshments were served in the school cafeteria.

BOARD OF SUPERVISORS OF APPOMATTOX COUNTY
F. L. Murphy, Chairman

Attest: C. W. Smith, Clerk.

## Local Delegates Attend Model General Assem.

The Appomattox Hi-Y and Tri-Hi-Y club delegates, Nancy Martin, Thomas O'Brien, Buddy Poe; Senator, Shawn Mabley; Reporter Dorothy Painter, and advisors, Mrs. Louise T. Brown and Mr. Jerry Miller, attended the Model General Assembly which held its opening session on April 5, in the House chambers at the Capitol, Richmond, Virginia.

The Model General Assembly, sponsored by the Virginia District Y. M. C. A., is to familiarize the high school students with the procedure of our government. Approximately 600 young people from the various Hi-Y and Tri-Hi-Y clubs in the state of Virginia attended this assembly and all were guests of either Hotel Richmond or King Carter Hotel.

Thursday night, as the House chambers rang with applause, the youth governor, the Honorable Don E. Miller, entered and gave his inaugural address.

Later the reporter had a press conference with the youth Governor. He is seventeen years and lives in the rural area of Dayton.

The most interesting bill was thus: "To levy a sales tax on commodities." It was passed by the house and senate and then signed by the Governor.

A press conference was held with the visiting delegation from Bellsville, Ontario, Canada, who told us about Canadian life.

At the closing session, we heard the results of our bill. The youth Governor Miller signed 21 bills, vetoed 4 and would sign or veto one.

The bill presented by the Appomattox delegation, "To require operation of motor vehicles to carry liability insurance," was combined with a similar bill from Portsmouth. The bill passed the House but was defeated in the Senate.

—Dorothy Painter, Reporter.

Lower corn and wheat crops are forecast for 1956.

**SMOKER DIES**

Buffalo, N. Y.- Falling asleep while smoking in a chair, Stanley Szelasiwicz, 65, was burned to death when the chair caught on fire. Ten other persons were forced to flee the building when the fire in Szelasimicz's apartment spread to the floor above.

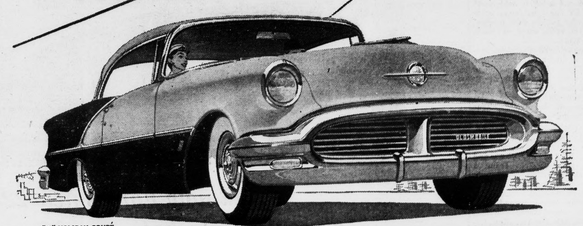
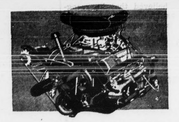
**WHAT MAKES "THE ROCKET" ROCKET?**



"88" HOLIDAY COUPE

**Here's why the engine that started the high-compression era still tops the field today!**



THE ROCKET BROUGHT high-compression performance to motoring . . . set the standards . . . broke the records.

Today it's the same. With a high in compression of 9.25 to 1 and a displacement of 324 cubic inches, the Rocket packs a potent new wallop.

THERE'S AN EFFORTLESS SMOOTHNESS that tells you this one is a masterpiece of balance and precision. What's more this power plant's big-bore, short-stroke design means shorter piston travel for less friction, less wear and longer life.

You'll rarely use the full 230† horsepower under the hood. But, you'll go for the Rocket's high torque—the force that makes the wheels go 'round. Even at medium speeds, your toe can call a hefty 340 pound-feet of torque into play—to move you away from a light or pass by any emergency. Add Jetaway Hydra-Matic* and you meet Rocket action at its smoothest.

VISIT OUR SHOWROOM TODAY! We invite you to "Rate the Rocket" on the road. You'll get out of the ordinary . . . into an Olds!

†240 h.p. and 350 lb.-ft. of torque in Super 88 and Ninety-Eight models.
*Standard on Series Ninety-Eight; optional at extra cost on all other series.

ROCKET SCORES DOUBLE VICTORY IN '56 MOBILGAS ECONOMY RUN! Tops for economy, too! In the famous Mobilgas competition, two Oldsmobiles were entered, two won! Both the 88 and Ninety-Eight took first places in their fields! Here's more convincing proof that Oldsmobile brings you top value today . . . top results tomorrow!
